

# Renewable Energy System Incentive Program

## IMPORTANT: Deadlines to Address ESSB 5939's Funding Limit (10-9-18)

Due to the high level of interest in the Renewable Energy System Incentive Program and the funding limitations prescribed in the governing legislation, we have established the following requirements, which will govern the incentive program's closure.

Be advised that these requirements apply only to the overall \$110 million funding limit; there are additional utility-specific funding limitations.

## Community Solar & Shared Commercial Solar Projects

All eligible sponsors of community solar or shared commercial solar projects must:

- Submit a precertification application by 5:00 p.m. on **November 16, 2018**. Applications received after this date will not be considered for funding under the \$110 million funding limit.

We also request that interested sponsors of community or shared commercial solar projects contact us as soon as possible: [PrecertificationRequest@energy.wsu.edu](mailto:PrecertificationRequest@energy.wsu.edu).

## Residential-Scale & Commercial-Scale Projects

- Applications must be submitted by 5:00 p.m. on **February 14, 2019** and have a final electrical inspection date no later than **January 31, 2019**.
- Applications received after February 14, 2019, or that have a final electrical inspection date after January 31, 2019, will be placed on a waitlist and will be processed only if funds are available.
