

Office of Administration

Mayor Ron Lucas

June 2016

Thank you for your interest in the Town of Steilacoom's Bonneville Power Administration (BPA) Ductless Heat Pump (DHP) Incentive Program.

The current incentive amount for single family units with electric zonal heat (i.e. cadet wall heaters, electric baseboard, etc.) is \$800.00 with the installation of a qualifying DHP. Single family units with an electric forced air furnace (furnace has duct work) can qualify for a \$1,200.00 incentive with the installation of a qualifying DHP unit. The DHP Incentive form is available on the Town's web page.

For additional information and a list of qualified installers, please go to the website, "goingductless.com". This program is funded through the BPA and has very specific requirements (also found on the Town's website) which must be met to qualify for the offered incentive payments.

The DHP Incentive Program currently runs through September 30, 2017 or sooner if funds are exhausted. Please review the information on the Town's web page and feel free to call (253) 983-2077 or email me: terry.huber@ci.steilacoom.wa.us with any questions.

Sincerely,

A handwritten signature in blue ink, appearing to read "Terry B. Huber".
